

# CosmoVerse@Istanbul 2025

## Tuesday 24 June 2025

**Morning session 2: (Tuesday) (11:10 - 12:40)**

-Conveners: Eric Linder

time	[id] title	presenter
11:10	[28] The TRGB-SBF Project: a Pop II path to H0	TULLY, Brent
11:50	[20] Hubble tension or distance ladder crisis?	Prof. PERIVOLAROPOULOS, Leandros
12:15	[76] Cosmology with GWxHI Cross-Correlation with Future Observatories	SCHULZ, Matteo

# Wednesday 25 June 2025

**Morning session 2: (Wednesday) (11:00 - 12:30)**

-Conveners: Özgür Akarsu

time	[id] title	presenter
11:00	[127] Dark Energy Dynamics and Data	LINDER, Eric
11:40	[33] Implications for cosmological expansion models from the final Dark Energy Survey BAO and SN data	MENA-FERNÁNDEZ, Juan
12:05	[58] Model-independent constraints in the context of multi-messenger cosmology	COZZUMBO, Andrea

# Thursday 26 June 2025

**Morning session 2: (Thursday) (11:00 - 12:30)**

-Conveners: Geraint Lewis

time	[id] title	presenter
11:00	[129] The Dark Side of the Cosmos: Exploring Dark Energy and Modified Gravity	BOUHMADI-LÓPEZ, Mariam
11:40	[63] The distance duality relation in light of the cosmic calibration tension	TEIXEIRA, Elsa
12:05	[83] On the microphysics of the Dark Energy	ANAGNOSTOPOULOS, Fotios
